

HIITMILL® 9-4670

Unlike a standard treadmill the StairMaster® HIIT Mill is a self-powered speed and strength training tool designed to build explosive power when used in a High-Intensity Interval Training program. This High-Intensity machine delivers an effective resistance training platform that captures the benefits of speed and agility training, lateral training and sled training. Users can now push, drive and sprint with the resistance of a sled, safely and with a smaller footprint. These easy to use tools allow users to drive up metabolic intensity and make for a more space efficient solution to alternative training methods. Gear up for one tough and rewarding HIIT workout that members will love to hate.

STAIRMASTER HIIT PROGRAMMING

Have your trainers and coaches HIIT certified by our Master Instructors, leverage our unique HIIT products to attract members and learn to market your own exciting HIIT program to create a new source of revenue for your facility.

TRACK YOUR INTENSITY

Track your workout with detailed metrics, follow one of the built in workout programs, and connect to your phone via Bluetooth to save and share your workout. The console also comes equipped with ANT+ giving you the ability to pair with heart rate trackers and connect to group displays.
